Dear Akira san

Thank you for your kind donation to the Dreamworld Wildlife Foundation which will directly contribute to saving animals in the wild and protecting their habitat.

The Dreamworld Wildlife Foundation continues to achieve amazing results with research, education, breeding, habitat and re-introduction programs of threatened and endangered wildlife species.

We work in collaboration with other conservation groups, governments and research organisations, including Save the Bilby Fund Inc., The University of Queensland and The Tree Roo Rescue and Conservation Centre to fund and support projects that protect the future of Australian wildlife.

In addition, the Dreamworld Wildlife Foundation is a major global contributor to the protection of tigers in the wild through our conservation partner, Wildcats Conservation Alliance, an initiative of the Zoological Society of London. We continue to make significant donations to fund anti-poaching patrols and conservation initiatives in Russia and Indonesia in the fight against tiger extinction.

We achieve this through the support of sincere people like you.

Thank you again for your kind contribution.

Kindest regards

David Haslingden
